

Paramedic Program Outcomes – NCTI Roseville

2015

Accredited Paramedic Programs track and report outcome measures annually to the Committee on Accreditation for the Emergency Medical Services Professions.

The most recent 3 year success rate for the National Registry of EMT exam is 99.5%.

The most recent 3 year positive placement rate for graduates is 31.3%. Positive placement is defined by the CoAEMSP as 'Employed full or part-time in a related field and/or continuing his/her education and/or serving in the military'. Positive placement is measured at completion of the program.

The most recent 3 year retention rate is 68.8%.

* Averages are for years: 2012, 2013, & 2014
