

National College of Technical Instruction- Bay Area (Livermore)

Paramedic Program Outcomes

Accredited Paramedic Programs track and report outcome measures annually to the Committee on Accreditation for the Emergency Medical Services Professions.

The most recent 3 year success rate for the National Registry of EMT Paramedic Cognitive exam is 94%.

The most recent 3 year success rate for the National Registry of EMT Paramedic Practical exam is 96%.

The most recent 3 year positive placement rate for graduates is 71%. Positive placement is defined by the CoAEMSP as 'Employed full or part-time in a related field and/or continuing his/her education and/or serving in the military'. Positive placement is measured at completion of the program.

The most recent 3 year retention rate is 75%.

* Averages are for years: 2013, 2014, & 2015
